1.6 Director Performance Evaluation

The Remuneration and Nomination Committee under the Chair of Ms Christy Boyce undertakes the process of performance reviews of the Board, its Committees and the Chairman. Objectives of the review are to ensure the Board adheres to ASX governance principles and to identify opportunities to improve the functioning of the Board as a whole. The focus is on the performance of the Board as a whole and, to a lesser extent, the Board committees. The Chairman performs individual appraisals on each director.

The annual review completed by Monash IVF Group Ltd Board was undertaken in August 2018. It involved directors completing a confidential online questionnaire covering aspects outlined in the Board Charter. The results were aggregated and discussed by the Board to inform areas or opportunities for improvement.

1.7 Senior Executive Evaluations

Monash IVF Group Ltd has an annual Performance Review Policy for all senior executives and managers as stated in the Board Charter. Senior executive and manager performance is reviewed by the CEO against KPIs which are both financial and non financial in nature. Monash IVF Group Ltd believes the current Board of seven members adequately allows its members to carry out its responsibilities without unnecessarily debasing its effectiveness with an excessive number that can hinder individual engagement and involvement of Board members. To add efficiency to the Board two committees are in-place; the Remuneration and Nomination Committee and the Audit and Risk Committee whereby meetings occurred during FY18. The Board Charter prescribes that all committee members be Independent Directors.

Principle 7 Recognise and Manage Risk

The Monash IVF Group Ltd Board, primarily through the Audit and Risk Management Committee, reviews and manages risk areas for the Group.

7.1 Audit and Risk Committee

The identification and appropriate management of risks is an important priority for the Monash IVF Group Ltd Board. 'Risks' are identified as any possible outcomes that

could materially impact the Company's financial performance, assets, reputation, people or the environment.

Risk recognition and management are viewed by the Company as integral to its objectives of creating and maintaining shareholder value, and to the successful execution of the Company's strategies. The Audit and Risk Management Committee oversees and governs risk management strategy and policy, to monitor risk management and to establish procedures which seek to provide assurance that major business risks are identified, consistently assessed and appropriately addressed.

The Committee abides by the Audit and Risk Management Committee Charter to assist the Board in fulfilling its corporate governance and oversight responsibilities in actively identifying risks and developing appropriate mitigants. The Board Committee adheres to the Risk Management Policy for the business which highlights the risks relevant to Company operations.

7.2 Risk Management

Monash IVF Group provides a framework for risk management which supports the achievement of our strategic and operational objectives. We are committed to maintaining an organisational philosophy and culture which ensures that effective risk management is integrated into day to day activities.

The Group maintains a Risk Register that documents all identified risks, lists appropriate preventative actions to mitigate risks, reviews process of risk reduction and nominates responsible persons who take ownership of the risk strategy process. The Risk Register is reviewed by the Risk Owners, Leadership teams and Executive Team help determine whether risks are still current, controls are effective and identify any emerging risks, which are then flagged to the Audit and Risk Management Committee. An annual review of Risk Management is undertaken annually and was completed in May 2018.

Specialist software used to record adverse events and feedback ensures that exposures to risk are continually monitored to ensure they are adequately understood and managed. This system of reporting also allows for formal monitoring of patient safety, identification training needs and informs clinical policy decision making.

7.3 Internal Audit

Monash IVF Group Ltd has an outsourced Internal Audit Function that commenced at the beginning of FY17. The internal audit function complements our external auditors review and report on internal controls bringing a systemic, disciplined approach to evaluating and continually improving the effectiveness of Monash IVF Group Ltd risk management and internal control processes. The Group appointed PriceWaterhouseCoopers as its internal audit provider in August 2016 who performed financial and non-financial internal audits in the financial, operational, information systems and compliance areas within the Group.

The CEO and CFO also have key responsibility in ensuring that internal controls are in place and operating effectively. As part of the various accreditation and licencing processes undertaken by the business, key internal audits are undertaken. These

audits are then made available to accrediting/licensing bodies. The Group believes internal controls implemented such as segregation of duties, delegation processes and structured approval process are in place to counter many risks.

7.4 Risk Exposure

Monash IVF Group Ltd provides assisted reproductive services in Australia and Malaysia and specialist women's imaging services in Australia. As a Group we are committed to conducting our services in an open and transparent environment and in a manner that is honest and ethical. The Group's focus embraces responsibility for corporate actions and encourages a positive impact on the environment and stakeholders including customers, employees, investors and the community.

Since our early pioneering days in assisted reproductive treatment, resulting in the first IVF pregnancy in 1973, Monash IVF Group Ltd has played an important role in the local communities we serve and society at large. Our focus on evidenced based fertility care provides the opportunity to commit resources to scientific research, clinical teaching and training.

From an ethical perspective, Monash IVF Group Ltd and its companies ensure national regulation and state legislation drives the standards of care to ensure we protect our customers, donors and any children born as a result of treatment provided by the Group.

All Monash IVF facilities meet the appropriate standards for accreditation including:

- Our assisted reproductive treatment sites in Australia are accredited with the Reproductive Technology Accreditation Committee (RTAC) and we ensure continued appropriate registrations are held by our sites, doctors, nurses and scientists. This accreditation incorporates components covering ethics and safety in practice and management of adverse events.
- Our day surgeries are accredited with National Safety and Quality Health Service (NSQHS) standards which ensure quality standards are consistent with an exceptional standard of care expected by consumers in health facilities.
- Our diagnostic laboratories are accredited to ISO 15189 and relevant NPAAC Guidelines.
- Our diagnostic imaging (ultrasound) facilities are accredited to the Department of Health Diagnostic Imaging Accreditation Scheme (DIAS).
- Our Malaysian site whilst not legally requiring the same level of approval operates to the same standards having been externally accredited to the international RTAC standards.

The Group recognises that our staff and Doctors are instrumental to the success of the organisation. Comprehensive recruitment, credentialing, induction, training and development programs are designed to attract and retain teams equipped to deliver outstanding customer care. Staff actively participate in the continual improvement of our internal policies and processes and are encouraged to participate in innovation and research.

The Monash IVF Group Workplace Health and Safety Policy framework covers policies on general safety in the workplace.

Monash IVF Group Ltd recognises protecting the environment is a critical issue and a key responsibility of the business and corporate community. With 22 fertility clinics, 18 specialist women's imaging sites, 5 service centres, 2 specialised diagnostic laboratories, 3 day hospitals and one central administration headquarters, we consider our environmental impact is minimal. Monash IVF Group is an organisation that is not involved in manufacturing or resource extraction and hence we consider our environmental footprint to be small and we adopt a philosophy of clinical

excellence in an environment of safe and supportive service provision. No material environmental or social sustainability risks have been identified.

The Quality Management System in place in each laboratory supports the review and monitoring of quality of product from suppliers. New consumables undergo a full quality screening process and products are thoroughly evaluated to review where and how products are manufactured before being used in the laboratories. All products are reviewed formally on an annual basis to ensure they maintain quality standards and informally on a day to day basis. Currently all Monash IVF Group sites use predominantly products from the top two suppliers in lab products supplying to Australia in order to maintain consistency in quality.

The Group takes cyber security and its potential consequences extremely seriously. The Group has comprehensive security arrangements in place to isolate attacks on its systems and ensure that attempted intrusions are identified and viruses are not spread across the Group's network or systems. The Group's IT systems operate safely and securely. Numerous levels of redundancy and backup are built into the IT systems providing a high degree of system availability and protection of data. An independent third party review of the Group's cyber security risk was performed during FY18. Recommendations from this review will further enhance cyber security measures in place.

Economic risk continues to be potentially material to Monash IVF Group Ltd. Our services in Australia are indirectly funded to a significant extent by the Australian Federal Government through the Medicare Benefit Schedule and Extended Medicare Safety Net. Any change to the funding arrangements could lead to reduced demand for our services affecting financial performance and sustainability of the Group. Market contraction and changes to market dynamics can significantly affect business outcomes and is a risk for the Group. Market competitiveness has heightened for this reason. One area where Monash IVF Group Ltd has been integral in leading the industry has been in advocating for governing bodies to be more transparent in reporting outcomes of treatments to allow customers to be better informed before commencing treatment. Tightening industry standards to ensure policies on consistency of data gathering, outcome reporting and transparency of results to the community will lead to improved outcomes for patients and the industry generally.

Principle 8 Remunerate fairly and responsibly

8.1 Remuneration and Nomination Committee

As outlined above under 'Structure the Board to add value' Monash IVF Group Ltd has a combined Remuneration and Nomination Committee which assists the Board with discharging its responsibilities to Shareholders with regard to developing and monitoring remuneration policies and practices for Directors, Senior Executives and employees.

The Committee works under the guidance of the Remuneration and Nomination Committee Charter and Remuneration Policy.

8.2 Remuneration of executive and non-executive directors

Under the guidance of the Remuneration and Nomination Committee and the Remuneration Policy the Monash IVF Group Ltd Board has established a framework for remuneration that is designed to ensure consistent and reasoned remuneration policies and practices are observed which enable the attraction and retention of directors and management and fairly rewards Directors and senior management for positive performance.

Monash IVF Group Ltd remuneration practices for Executive appointments are expanded on in the Remuneration Report. The Monash IVF Group Ltd Remuneration Policy can be found on the Group website at: <http://ir.monashivfgroup.com.au/Investor-Centre/?page=Corporate-Governance>

8.3 Equity Based remuneration

Currently the CEO, CFO and International Business Development Manager have long term incentives that are equity based. The COO will be issued with equity based remuneration in FY19. The participants have no mechanisms available to limit the risk associated with that scheme.
