

Dr Kee Ong

Gynaecology, Fertility Specialist and
Assisted Reproductive Medicine

Meet Dr Kee Ong

Clinical Director at Monash IVF Gold Coast and Centre of Reproductive Medicine and Surgery founding Specialist. BMedSci, MBBS, MMed (RH & HG) Sydney, FRANZCOG.

Dr. Kee Ong is one of the nation's brightest medical minds and a fertility force to be reckoned with. Fifteen years of concentrated focus in infertility, re-current miscarriage, endometriosis, and gynaecological investigative surgery have established Dr Ong as a medical and media authority and one of the most sought-after specialists in the country.

On top of specialist medical qualifications, Dr Ong completed four additional years of training in reproductive endocrinology and infertility at world leading infertility and reproductive surgery centres in Australia and overseas.

Dr Ong has managed thousands of IVF cycles and secondary referrals gaining extensive experience with the most difficult and complicated infertility cases. Kee is about proactivity, modern medicine embracing alternate therapies and establishing long-term family goals.

"The cornerstone of great fertility care is getting to the bottom of the underlying cause as quickly as possible. You should never feel like a number and never let anyone tell you nothing can be done," Dr Kee Ong.

With over 3000 babies welcomed into his ever-growing family, Dr Kee Ong is an incredibly talented specialist who places equal importance on taking care of hearts and minds on the journey.

Dr Miriam Lee

Gynaecology, Fertility and Assisted Reproductive Medicine.

Meet Dr Miriam Lee

MBBS (Qld) FRANZCOG

Dr Miriam Lee graduated from medicine from the University of Queensland in 1991. She trained in Obstetrics and Gynaecology in various hospitals in Queensland including Gold Coast, Mater Mothers', QEII, Logan and Caboolture. Her final years of Obstetrics and Gynaecology training were completed in King Edward Hospital, Perth. There she gained skills in advanced laparoscopic surgery, assisted reproductive technology (fertility treatment) and general gynaecology. Miriam has worked in all areas of fertility treatment since 2004, starting in Concept Fertility Centre, then Mount Hospital Fertility clinic in Perth and now on the Gold Coast.

Miriam has been helping women start a family on the Gold Coast since 2004. She is the first female gynaecologist practising solely in fertility treatment and gynaecology on the Gold Coast. She is very passionate about all aspects of fertility and has an excellent rapport with her patients. She also has special interests in vulvo-vaginal disorders, minimally invasive surgery, endometrial ablation, vaginal prolapse and urinary incontinence. Miriam also offers consultations in Cantonese.

Miriam is very committed in continuing the fertility journey with Monash IVF and being involved with such a professional team.

Dr Steve Mokrzecki

Gynaecology, Fertility and Assisted Reproductive Medicine

Meet Dr Steve Mokrzecki

Founding Specialist at Centre of Reproductive Medicine and Surgery. FRANZCOG, MBBS, BSC (Hons).

Dr Mokrzecki completed his obstetrics and gynaecology training in Queensland and has worked in private practice for over two decades. As Monash Clinical Director, Townsville, Steve was part of the establishing team to bring world class IVF treatment to North Queensland for the very first time.

Experienced in all areas of gynaecology with a special interest in laparoscopic surgery, he was one of the first specialist doctors to pioneer laparoscopic hysterectomies at Mater Mothers Private in Townsville.

A reproductive medicine innovator, Dr Mokrzecki is passionate about connecting with patients offering world class treatment through a very personal approach.

Dr Nick Andrew

Ophthalmology

Meet Dr Nick Andrew

MBBS, FRANZCO, PhD

Dr Andrew is an ophthalmologist (eye surgeon) with special expertise in cataract, glaucoma, pterygia, and complex surgery of the lens and iris.

He is the only ophthalmologist in the Asia-Pacific region to have completed the prestigious GAASS fellowship in Toronto, which is widely regarded as the best training in cataract and glaucoma surgery in the world.

As of 2024, Dr Andrew has published over 50 scientific articles in international ophthalmic journals and has supervised several Master's students.

He consults at *Sight Specialists* clinic, located in Southport, Gold Coast.

Dr Tony Cakar

Specialist Paediatric Dentist

Meet Dr Tony Cakar

Dr Tony qualified with honours and worked as a general dentist for 7 years before following his passion and dream, and completing the Clinical Doctorate in Paediatric Dentistry at University of Queensland. In general practice Dr Tony witnessed first-hand the anxiety faced by most adults around their dental treatment, with roots back to childhood experiences. This inspired Dr Tony to conceive of and co-create Grow Paediatric Dentistry (Grow PD) to help kids have the positive dental experiences they deserve. Dr Tony enjoys teaching and strongly believes in improving patient care through education. He is a visiting lecturer at University of Queensland and Griffith University. He's published in peer reviewed journals, is a member of several professional organisations, and serves as the President of the Gold Coast Dental Study club.

He consults at *Grow Paediatric Dentistry*, located in Robina, Gold Coast.

Dr Alexi Mogilevski

Specialist Paediatric Dentist

Meet Dr Alexi Mogilevski

Dr Alex's passion for working with children came from his experience as a general dentist in Brisbane in 2016. Alex takes great pride in helping families through their dental journey with compassion and kindness.

To pursue his specialist career, Dr Alex spent three years training at the prestigious Queen Mary University of London. After finishing his training Dr Alex was elected a member of the Royal College of Surgeons of Edinburgh.

Alex's paediatric dental interests include complex reconstructive restorative care for children including the use of zirconia crowns and minor oral surgery for paediatric patients.

He consults at *Grow Paediatric Dentistry*, located in Robina, Gold Coast.

Dr Drew Cronin

Plastic Surgeon

Dr Peter Widdowson

Plastic Surgeon

Meet Dr Drew Cronin

FRACS (Plast) (MED0000983320) B.Biomed Sci, MBBS, Registered medical practitioner.

Dr Drew Cronin is a Queensland trained and fully certified Specialist Plastic and Reconstructive Surgeon. Dr Cronin was born and raised on the Gold Coast making him the Gold Coast's first locally trained Specialist Plastic Surgeon. Dr Cronin has a special interest in performing breast, body and facial surgery.

Dr Cronin works in the Gold Coast University Hospital where he performs major head and neck surgery, breast reconstruction, microsurgery, lower and upper limb trauma, and general reconstruction. He is also the Director of Training for the Plastic Surgery trainees/registrars and is involved in the training of future plastic surgeons.

He was the inaugural President of the Griffith University Medical Society and underwent residency at the Gold Coast Hospital before being accepted to the Plastic and Reconstructive Surgery training program in Queensland. Upon completion of his training, Dr Cronin has returned home to the Gold Coast where he and his wife Nicole started The Coastal Clinic in 2022. Shortly after opening the surgical clinic in Southport, they also opened a non-surgical clinic in Varsity Lakes offering a range of treatments.

He consults at *The Coastal Clinic*, located in Southport, Gold Coast.

Meet Dr Peter Widdowson

Plastic Surgeon MB, ChB (Otago), FRACS (Plastic)

Following his graduation through the Royal Australasian College of Surgeons with a Gold Medal in Surgery in 1982 and post graduate study in Glasgow, Scotland, England and Australia, Dr Widdowson accepted a consultant position at Waikato Hospital, Hamilton, New Zealand in 1987. As Director of Plastic Surgery at Waikato Hospital for 12 years Dr Widdowson's work included burns victims, art of microsurgery, paediatric surgery (cleft lip and palate), skin cancer patients and hand surgery. In 1999 Dr Widdowson joined the Lotus Institute on the Gold Coast and for the last 25 years has established his reputation in the Aesthetic (cosmetic) Plastic Surgery industry through commitment, integrity, and excellence.

Dr Widdowson specializes in all cosmetic procedures including facelifts, upper and lower Blepharoplasty (eyes), Breast Augmentation, Mastopexy (breast uplift), Breast Reduction, Gynaecomastia, Abdominoplasty, Breast Implant Removal, Otoplasty, Brachioplasty, Browlift, Lip Lift, Post Weight-Loss Surgery and Skin Cancer Surgery.

He consults at *The Lotus Institute*, located in Southport, Gold Coast.
