**Please list personal and/or professional interests.**

I have interest in psychology. currently my plan to study Diploma in Community Services [REDACTED]  
I like to travel, explore new things.

**Please describe your personality/temperament.**

I am a hard-working and driven individual who isn't afraid to face a challenge. I'm passionate about my work and I know how to get the job done. I am cool and calm person with lots of ambitions. I'm helpful by nature and kind too.

Please describe your attitude/philosophy in life.

Life is very precious so don't waste that. Do what you enjoy. Help others as much as you can do that. Universe will give you back what you give to universe.

What do you think makes you unique?

It is hard to answer this question because no one knows themselves. We all are exploring that what we like, what we want in life. But my extreme desire to help others makes me different from others.

How would you describe your childhood? And what value were you taught?

My childhood was bit struggling because I lost my parents at 12 so I got many lessons. Got matured every young age. The values I follow are be kind, be helpful, be respectful and just leave it on God.

Who were the most influential people in your upbringing? And what were they like?

My grandparents raised me. So I was raised by couples who had experience of 60 years of life and their experience helped me to grow with good values. They were also very helpful, respectful by nature.

Please explain why you wish to become a donor.

Till 2021 I was with grandparents but 2021 I lost grandma and 2022 grandpa so I know the feeling of loneliness. And growing up without parents I know that pain too. So I really want to help couples who can't conceive naturally because I don't want them to feel loneliness in life.

Do you have a message for a child conceived from your donation?

Hey!  
You parents are really blessed to have in their life. Always make them proud.
